Is it possible to see you again?
Is it possible to love you again?
Don't want to end up just being your friend
I want to love you until the end

I always think of you since we're apart
I hope someday we'll have another start
Maybe I made mistakes that made you blue
And I'll promise I'll never make new

I want you
So please stay with me
Bring back the love
That we used to be

La la-la-la la, La la-la-la la...
Although we end up just being good friends
I want to be with you until the end

It's not impossible to love me again
I hope it's possible to see you again
My heart is always just waiting for you
And I will wait until you say I do
